**University of Maryland University College**  
(2008-2012)

**Bachelor of Business Administration**

**Kutztown University of Pennsylvania**  
(2002-2005)

---

## PROJECTS

---

### **My Home** (<https://myhome-app.herokuapp.com>)

Purpose: A web application to store paint colors, appliance information and other upgrades to user's home. Create a quick and easy way to reference information for homeowner. Includes user login.

Technologies used: I decided to use **Meteor JS** since I wanted to use **React** for the front-end and **MongoDB** for the database. I also used **HTML5** and **CSS3** along with **Bootstrap** to create responsive design across all devices.

### **Portfolio Site** ([bhankee.github.io](http://bhankee.github.io))

Purpose: To present information about my work including my blog and social media links.

Technologies used: **HTML5**, **CSS3**, **jQuery**, **JavaScript**, **Bootstrap**.

---

## RELATED EXPERIENCE

---

### **Programming Bootcamp Tutor – Trilogy (Part-time)**

**12/17 - Present**

Tutor bootcamp students on JavaScript, HTML, CSS, Bootstrap, AJAX, Node, React, Git and APIs. Make sure students thoroughly understand code and concepts while building projects to expand portfolios.

### **Resource Manager – Vets Who Code (Volunteer)**

**11/17 - Present**

Contact for bootcamp students for resources that help in the process of development and learning. Reach out to companies to acquire more resources that will have a direct impact on student success and hire rates.
